

NOMADTM 3.5
S O L A R P A N E L

Get to know your gear

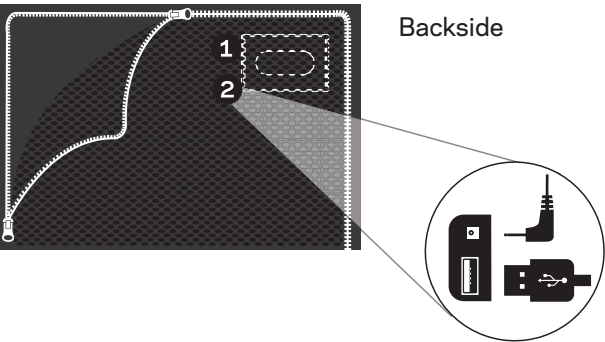

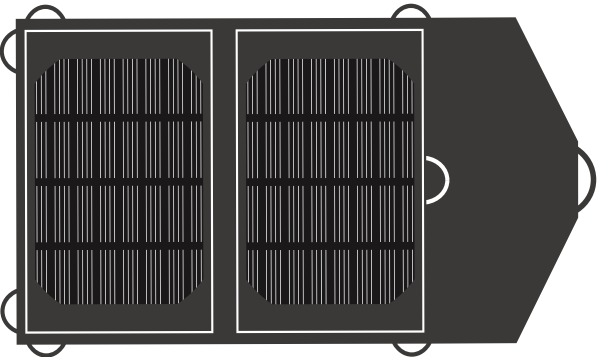

Getting Started

- 1. Be sure to ACTIVATE YOUR WARRANTY at www.GOALZERO.com/warranty
- 2. Open and remove protective film from solar cells.
- 3. Position and angle towards the sun (see below).
- 4. Plug your device into one of the charging ports.

How to use your gear

- 1 **USB output port**
Accepts any standard USB cable for charging USB devices.
- 2 **Solar output port**
Charges the GOAL ZERO GUIDE 10, faster than USB.

Solar panel	Rated wattage: 3.5W Cell type: monocrystalline Open-circuit voltage: 6.5-7V Converting eff.: 17-18% Cell area: 0.0199 m ²
Outputs	
USB port	5V, 0.5A max (2.5W), linear regulated
Solar port (for Guide 10)	6-6.5V, 0.5A max (3.0W), not regulated
General	
Weight (no pkg)	0.5 lbs (0.22 kg)
Dimensions (folded)	7x5.5x1 in (17.7x13.9x2.5 cm)
Dimensions (unfolded)	14x7x0.5 in (33.5x17.7x1.2 cm)
Warranty	12 months
Certifications	FCC and CE
Optimal Operating Temp.	0-120°F (-17-48°C)

Comes With

12V car adapter

Frequently Asked Questions

What can I charge?

You can charge different USB devices. For a full list see below. The NOMAD 3.5 wil **not** charge smart phones by itself. We recommend pairing it with the GUIDE 10 PLUS battery pack as an intermediary.

Why can't I charge my smart phone or tablet?

Smart phones and tablets draw more current than can be provided. For these devices we suggest using the GUIDE 10 PLUS battery pack with the NOMAD 3.5.

Does it work indoors or in cloudy weather?

Solar panels produce power from any light source, but maximum power output will **greatly** diminish in cloudy weather. Will not work indoors. Using the GOAL ZERO GUIDE 10 PLUS will capture the most power from any condition.

Compatible With

Most hand-held USB devices, like:

Cell phone
GPS
MP3 player

GOAL ZERO products:

GUIDE 10 Plus battery pack
ROCK OUT speaker
BOLT flashlight
BLAZE headlamp
